**What is a Multi-Space Parking Meter?**

Parking Services has installed centrally located parking meter technology capable of managing multiple parking spaces and providing you with a paid receipt that **must** be displayed (face up) inside your vehicle on the dashboard. The receipt displays the time that your parking space in the lot expires and is used for enforcement purposes.

**How do I find the Multi-Space Parking Meter?**

Upon entering one of our metered locations you will notice a “kiosk” like meter that has been conveniently located within the lot. In some cases there may be 2 meters in the lot. **What are the Meter Rates and how do I pay?**

The meter rates are .25 cents per 12 minutes with a 4 hour parking limit. For your convenience, multiple forms of payment such as Quarters, Dollar Coins and $1 Dollar Bills can be used to pay for parking. The meters do not give or make change so if you choose to pay with a Dollar Coin or Dollar Bill you will be paying for a minimum of (1) one hour of parking. In addition, please pay for all time needed as you can not add time to a purchase once a receipt is issued. Once you have completed your transaction, you will receive a receipt which you are required to display (face up) inside your vehicle on the dashboard. The receipt displays the time that your space in the lot expires and is used for enforcement purposes. If you are parked longer than the time allowed on your receipt you may be issued a citation.
